**Independent Auditor's Report on Quarterly and Year to Date Audited Financial Results of the Company Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended)**

To  
The Board of Directors

Indo Eco (INDIA) Limited

**Opinion**

We have audited the accompanying Statement of quarterly and year to date Financial Results of **Indo Eco (INDIA) Limited** ("the Company") for the year ended March 31, 2021 ("the Statement"), being submitted by the Company pursuant to the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("the Listing Regulations").

In our opinion and to the best of our information and according to the explanations given to us, the statement:

- a. is presented in accordance with the requirements of the listing Regulations in this regard; and
- b. gives a true and fair view in conformity with the recognition and measurement principles laid down in the Indian Accounting Standards and other accounting principles generally accepted in India, of the net profit and other comprehensive income and other financial information of the Company for the quarter ended March 31, 2021 and for the year ended March 31, 2021.

**Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013 ("the Act"). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for Audit of the Financial Results for the year ended March 31, 2021, section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Financial Results for the year ended March 31, 2021 under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion.

**Management's Responsibilities for the Financial Results**

This Statement, which includes the Financial Results is the responsibility of the Company's Board of Directors, and has been approved by them for the issuance. The Statement has been compiled from the related audited financial statements for the year ended March 31, 2021, and interim financial information for the quarter ended March 31, 2021 being the balancing figure between audited figures in respect of the full financial year and the audited year to date figures up to the third quarter of the current financial year. This responsibility includes the preparation and presentation of the Statement that give a true and fair view of the net profit and other comprehensive income and other financial information in accordance with the recognition and measurement principles laid down in the Indian Accounting Standards prescribed under Section 133 of the Act read with relevant rules issued there under and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. This responsibility also includes maintenance of adequate

accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Results that give a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the Statement, the Board of Directors are responsible for assessing the Company's ability, to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the financial reporting process of the Company.

### **Auditor's Responsibilities for the Audit of Financial Results**

Our objectives are to obtain reasonable assurance about whether the financial results for the year ended March 31, 2021 as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Evaluate the appropriateness and reasonableness of disclosures made by the Board of Directors in terms of the requirements specified under Regulation 33 of the Listing regulations
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial results, including the disclosures, and whether the financial results represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the Financial Results of the Company to express an opinion on the Financial Results.

Materiality is the magnitude of misstatements in the financial results that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial results may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial results.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### **Other Matter**

The Statement includes the results for the Quarter ended March 31, 2021 being the balancing figure between audited figures in respect of the full financial year and the published unaudited year to date figures up to the third quarter of the current financial year which were subjected to a limited review by us, as required under the Listing Regulations .

# Possible use of weaponised drones for terrorism calls for serious attention: India at UN

**UNITED NATIONS, JUNE 29** /- /- The possibility of the use of weaponised drones for terrorist activities against strategic and commercial assets calls for serious attention by the global community, India has told the UN General Assembly, a day after two explosives-laden drones crashed into the Indian Air Force (IAF) station at Jammu airport.

A fresh attempt to attack a military installation with the help of drones was foiled by alert Army sentries at the Ratnuchak-Kaluchak station who fired at the unmanned aerial vehicles that flew away, an incident that came hours after an IAF station saw the first terror attack using quadcopters.

The first drone was spotted at around 11.45 pm on Sunday followed by another at 2.40 am over the military station, which witnessed a terror attack in 2002 in which 31 people were killed, including 10 children. The IAF attack is the first instance of suspected Pakistan-based terrorists deploying drones to strike at the country's vital installations. "Today, misuse of information and communication technology such as internet and social media for terrorist

propaganda, radicalisation and recruitment of cadre; misuse of new payment methods and crowdfunding platforms for financing of terrorism; and misuse of emerging technologies for terrorist purposes have emerged as the most serious threats of terrorism and will decide the counter-terrorism paradigm going forward, Special Secretary (Internal Security), Ministry of Home Affairs in the Government of India, V S K Kaumudi said.

Speaking at the Global scourge of terrorism: assessment of current threats and emerging trends for the new decade, he said, another add-on to existing worries is the use of drones. "Being a low-cost option and easily available, utilisation of these aerial/sub-surface platforms for sinister purposes by terrorist groups such as intelligence collection, weapon/explosives delivery and targeted attacks have become an imminent danger and challenge for security agencies worldwide, he said at the 2nd High Level Conference of the

Head of Counter-Terrorism Agencies of the Member States in the General Assembly. The possibility of the use of weaponised drones for terrorist purposes against strategic and commercial assets calls for

File Photo

serious attention by the member states. We have witnessed terrorists using UAS to smuggle weapons across borders, Kaumudi said, according to his statement issued by the Permanent Mission of India to the UN. Kaumudi said the COVID-19 pandemic and the subsequent isolation have further accentuated the impact of the internet on people making them vulnerable to radicalisation and recruitment by terrorist

groups. Spreading terrorist propaganda through the use of "indulging video games" is another strategy that was deployed by terrorist groups during the pandemic, he said. It is imperative for countries to adopt a multi-pronged approach to tackle the global threats emanating out of misuse of new technologies particularly aiming towards terrorism and violent extremism conducive to terrorism, he said.

India called on the world to remain united against tendencies of labeling terrorism based on terrorist motivations especially those based on religion, and political ideologies. This will certainly divide us and weaken our fight against terrorism, Kaumudi said. He said the transborder nature of this threat calls for collective and unified action by the international community, without any excuse or exceptions, ensuring that those countries which provide safe havens to terrorists should be called out and

held accountable. India noted with concern that internet and social media platforms have turned into indispensable resources in the toolkit of global terrorist groups for spreading terrorist propaganda and conspiracy theories aimed at spreading hatred among societies and communities and offer additional radicalisation opportunities which may proliferate globally. The increased use of closed group communications adds to the concern, he said.

Kaumudi told the General Assembly that continuing advancements in evolving technologies, such as Artificial Intelligence, robotics, deep fakes, blockchain, dark web are fraught with the risk of being abused by terrorists. Already, cryptocurrencies, virtual assets, crowdfunding platforms are helping terror financing, owing to anonymity and un-traceability of these technologies, he said. India has put in place an elaborate counter-terrorism and security architecture, besides introducing a series of measures in the cyber-space encapsulating counter-radicalisation and de-radicalisation strategies. (PTI)

## International cooperation answer to COVID challenge, says Jaishankar at G20

**MATERA, JUNE 29** /- /- External affairs minister S Jaishankar said today that international cooperation is the answer to the challenge posed by the COVID-19 pandemic.

"Whether it is vaccines, medicines, PPE or oxygen, international cooperation is the answer to the COVID challenge. Need more, not less," Jaishankar said while addressing the G20 Foreign Ministers' Meeting here. "Institutional multilateralism has been found wanting. Reforms have many forms but vaccine equity will be the immediate test. The real economy needs decentralised globalisation, including in manufacturing, food and health. Resilient supply chains must develop in parallel," he said. "The full diversity of our planet needs more accurate reflection in global policy making," he added.

India has recorded more than 3 crore coronavirus cases and registered nearly 400,000 deaths due to the virus since the beginning of the pandemic last year. Globally, the coronavirus has infected over 18 crore people and killed nearly 40 lakh, according to Johns Hopkins University.

Jaishankar arrived in Italy from Greece on the second leg of his two-nation tour to attend the G20 ministerial meetings. The G20 summit is scheduled to be held in Italy in October. India is expected to hold the presidency of the G20 in 2022.

The G20 is an influential bloc that brings together the world's major economies. The G20 member countries are Argentina, Australia, Brazil, Canada, China, France, Germany, Japan, India, Indonesia, Italy, Mexico, Russia, South Africa, Saudi Arabia, South Korea, Turkey, the United Kingdom, the United States and the European Union. ## Chinese Covid vaccine found safe, effective in children, adolescents: Lancet study

**BEIJING, JUNE 29** /- /- Two doses of the China-made COVID-19 vaccine, CoronaVac, are safe and produce a strong antibody response among children and adolescents aged 3-17 years, according to a study published in The Lancet Infectious Diseases journal. The phase 1/2 trial on 550 young people found that over 96 per cent of children and adolescents who received two doses of the vaccine, manufactured by Sinovac, developed antibodies against SARS-CoV-2, the virus that causes COVID-19. Most adverse reactions were mild or moderate, with pain at the injection site the most commonly reported symptom, the researchers said. "Children and adolescents with COVID-19

usually have mild or asymptomatic infections compared with adults. However, a small number may still be at risk of severe illness," said Qiang Gao from Sinovac Life Sciences, China. "They can also transmit the virus to others, making it vital to test the safety and effectiveness of COVID-19 vaccines in younger age groups," Gao said.

The researchers conducted the phase 1/2 clinical trial of CoronaVac in healthy children and adolescents aged 3-17 years in Zhanhuang County, China. Between October 31 and December 2, 2020, 72 participants were enrolled in phase 1, and 480 participants enrolled in phase 2 between

December 12 and December 30, 2020. The vaccine -- either 1.5 microgram (g) or 3 g per dose -- or

a control was given by intramuscular injection in two doses, at day 0 and day 28.

Among the 550 participants who received at least one dose of vaccine or the control, adverse reactions within 28 days occurred in 56 (26 per cent) of 219

participants in the 1.5 g group. Such adverse events were reported in 63 (29 per cent) of 217 participants in the 3 g group, and 27 (24 per cent) of 114 in the control group. Only one serious adverse reaction -- a case of pneumonia -- was reported in the control group, however, this was unrelated to the COVID-19 vaccination, the researchers said.

In phase 1, 100 per cent of participants in both the 1.5 g and 3 g groups generated antibodies against SARS-CoV-2. Stronger immune responses -- determined by the amount of antibodies produced that can neutralise the virus -- were detected among the 3 g group compared with the 1.5 g group. In

phase 2, 97 per cent of participants in the 1.5 g group produced antibodies against SARS-CoV-2, compared with 100 per cent in the 3 g group. Participants in the 3 g group again produced a stronger immune response than those in the 1.5 g group. The researchers noted that immune responses among children and adolescents were higher than those measured in adults aged 18-59 years and elderly aged 60 years and older. No significant differences in immune response were detected in an analysis by age group. More than 93 per cent of those in the 1.5 g and 3 g groups aged 3-5 years, 6-11 years, and 12-17 years produced antibodies against SARS-CoV-2 at day 28 after the second dose. (PTI)
